

2nd Grade is a year of discovery for your child.

In order for your child to be successful, there is the need for a teamwork approach... the child, the parent, and the teacher.
Working together, we know our 2nd graders will be successful.
Home Support
Your child will benefit greatly with support in:
Addition facts
Subtraction Facts
Weekly Spelling Words
Homework
Daily Reading

Kellogg Elementary (Y5-2)

Our Mission:

To educate every child to achieve his or her full potential.

Our Vision:

The Gull Lake Community Schools, in partnership with all stakeholders, will create a culture of high expectations and accountability where each member of the school community is challenged and inspired.

Using practical situations around home, such as counting money, measuring while cooking, estimating, etc., will enhance a child's familiarity with numbers and problem solving.
