

Superintendent Newsletter

July 9, 2021 – Summer Edition

Dear Gull Lake Community Schools Families and Staff,

For those of you who are new to our District website, I want to direct your attention to the “Fall 2021 FAQ” tab located below this newsletter link on our website landing page. This is where you will find all our updates and information throughout the summer. You can email your question to us and have the appropriate staff specialist give you the answer!

Our Capital Bond Project is coming along nicely this summer! As you drive along M-89 and 40th Street, you can see the many improvements being made. Our plans incorporate increased traffic safety, improved air quality and upgraded security as envisioned through the original bond process. The teaching and learning spaces are spacious and inspiring with lots of natural light and aesthetic appeal. The new Gull Lake Center for the Fine Arts stands high against the skyline and reminds us that we will soon be gathering for instrumental and vocal performances, plays and theater productions!

The District is deeply engaged in the Strategic Planning Process and has been carefully working through the input you provided during our Spring survey. We are fortunate to have such active and engaged students and families and value the experiences you share with us in our goal setting process.

We will continue updating you on Fridays throughout the rest of the summer.

Have a great weekend!

Best regards,

Raphael Rittenhouse/Superintendent
