September 30, 2022

Dear Gull Lake Families and Staff,

This afternoon is the scheduled groundbreaking ceremony for our new Career & Technical Center that will be built next to the Wings Event Center in Kalamazoo County. This state-of-the-art facility will host sixteen programs for our students that lead to great careers with good living wages in our region. This ceremony is the official start of a project that realizes our collective dream of providing these career opportunities for our kids.

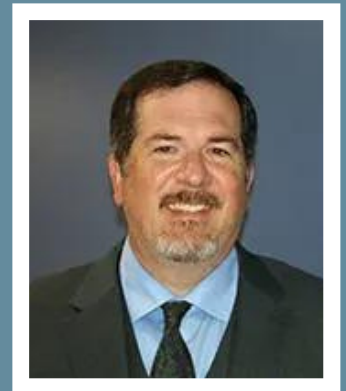

The new facility is centrally located and will provide ready access for students who choose to participate. This is an exciting time in our history and is a continuation of our program here at Gull Lake Community Schools to build the next generation of facilities that support quality career pathways for all students. There is still much preparation leading up to the ribbon cutting ceremony for the 2024 school year, but we are encouraged to see this good work begin in earnest!

You can view more [GLCS Good Things](#) on the provided link. It is a privilege to “see good in all things” with our partners in collaboration across the county.

Have a wonderful weekend!

Raphael Rittenhouse/Superintendent  
Gull Lake Community Schools
